

DLA COMMANDER, OGDEN (DSCR-AC)

MISSION:

To provide direct logistics support for Defense Logistics Agency's (DLA) world-wide mission. The DLA Commander, Ogden (DSCR-AC) will be responsible for daily operations of all retail supply, storage and distribution support, representing DLA in its effort to extend the Enterprise and will serve as an important link in DLA's total supply chain support of the warfighter. DLA Ogden, will provide timely and effective logistical support to the 309th Maintenance Wing; manage supply, storage and distribution of material required to sustain all Programmed/Un-programmed Depot Maintenance, repair and manufacturing processes within the Wing; managing the retail inventory to include prepositioning stock to enhance support to production.

As the Supply, Storage and Distribution provider, DLA Ogden, will provide material support which includes stock control, material requisitioning from Sources of Supply (SOS), receipt, stock/store/inventory, material handling, process turn-ins, courtesy storage, Industrial Prime Vendor (IPV) Program oversight, material supportability related to procurement processes, Due-In From Maintenance/Due-Out to Maintenance (DIFM/DOTM) to the Ogden Air Logistics Center depot maintenance repair lines.

The DLA Commander, Ogden is the "one-face to the customer" for all DLA business areas on Hill Air Force Base and is dependent on the other DLA business areas and all the DLA Supply Chain Owners (SCOs). In addition, DLA Ogden is directly responsible for the daily operations of the retail supply, storage and distribution functions transferred to DLA in support of the Ogden Air Logistics Center (ALC) production lines. In order to ensure there are no work stoppages of the Ogden ALC production lines, the DLA Commander, Ogden is authorized to contact directly any DLA business area and any individual working in any DLA business area. The responsibility of the DLA Commander, Ogden does not extend into the daily operations of any DLA direct support business area.

DLA OGDEN, Aircraft Material Support Division (DSCR-ACA, ACAA, ACAB, ACAC, ACAD, ACAE).

MISSION:

Is responsible for overseeing the Shop Service Centers that are responsible for providing logistics and retail material support to the A-10, C-130, F-16, B-2, F/A-22, and F/A-35, as well as, flight test, ramp shops, structures, and composites workloads.

FUNCTIONS:

1. Maintains definitive control of General Support Division stock fund owned assets and inventory data in the Stock Control and Distribution System (D035K).
2. Manages the physical location of on-hand material in a forward location for immediate use by

the repair line.

3. Acts as a liaison between depot maintenance and prime item managers for both Air Force and DLA items.
4. Analyzes existing and incoming workload and ensures allocation of resources based on requirements generated by the production squadrons.
5. Provides supply chain material support for Programmed Depot Maintenance (PDM) and unscheduled repair activities A-10, C-130, F-16, B-2, F/A-22, and F/A-35 to include new supply processes related to the repair, modification, reclamation, and rework of aircraft worldwide.

DLA OGDEN, Commodities Material Support Division (DSCR-ACB, ACBA, ACBB, ACBC).

MISSION:

Oversees the Shop Service Centers (SSC) that are responsible for providing logistics and retail material support to the landing gear, hydraulics, power systems, wheels and brakes, and armament workloads.

FUNCTIONS:

1. Maintains definitive control of General Support Division stock fund owned assets and inventory data in the Stock Control and Distribution System (D035K).
2. Manages the physical location of on-hand material in a forward location for immediate use by the repair line.
3. Acts as a liaison between depot maintenance and prime item managers for both Air Force and DLA items.
4. Analyzes existing and incoming workload, and ensures allocation of resources based on requirements generated by the production squadrons.
5. Provides depot maintenance with supply chain support by obtaining materials required for end-item repairs which may be used to repair workloads such as, but not limited to, major structural repair, local manufacturing, modification, component, and special processes repair.

DLA OGDEN, Electronics, Missiles, & Software Material Support Division (DSCR-ACC, ACCA, ACCB, ACCC, ACCD).

MISSION:

Is responsible for overseeing Shop Service Centers that are responsible for providing logistics and retail material support to the electrical accessories (generators, instruments), avionics, missiles, and software development workloads.

FUNCTIONS:

1. Maintains definitive control of General Support Division stock fund owned assets and inventory data in the Stock Control and Distribution System (D035K).
2. Manages the physical location of on-hand material in a forward location for immediate use by the repair line.

3. Acts as a liaison between depot maintenance and prime item managers for both Air Force and DLA items.
4. Analyzes existing and incoming workload and ensures allocation of resources based on requirements generated by the production squadrons.
5. Provides depot maintenance with supply chain support by obtaining material required for end-item repairs, developmental projects, missile maintenance, and all other associated projects.

DLA OGDEN, Depot Support / Program Control Division (DSCR-ACD, ACDA, ACDB, ACDC).

MISSION:

Is responsible for providing direct logistics support for Defense Logistics Agency's (DLA) world-wide mission. Responsible for daily support operations of the DLA Ogden Division to the production lines. Provides timely and effective logistical support to the 309th Maintenance Wing; manages supply, storage and distribution of material required to sustain the production line repair needs.

FUNCTION:

1. Provides supply policy and procedures for the squadron, to include the Shop Service Center (SSC) Units. Responsible for analysis and special studies in determining supply support posture.
2. Directs the squadron surveillance program, ensuring squadron compliance of all directives. Maintains, assesses, and schedule training needs for squadron personnel.
3. Analyzes workload, ensuring proper allocation of resources to programs across the squadron
4. Manages requisitions to sources of supply to include Air Force, DLA and various alternate sources.
5. Acts as the liaison between SSC personnel and procurement sources. Track and review items that are Due In From Overhaul (DIOH) for all wing production shops, coordinating with schedulers to resolve out of balance conditions.
6. Monitors and measure performance and health of retail inventory levels and customer requirements.

DLA OGDEN, Executive Support Division (DSCR-ACE, ACEA, ACEB).

MISSION:

Manages the General Support Division of the Air Force Stock Fund overseeing the e home office recruitment program for the squadron.

FUNCTION:

1. Serves as the Office of Primary Responsibility for the Squadron Transformation program, responsible for ensuring continuous process improvement throughout the division. Provides contract oversight for the MXW IPV Program.
2. Oversees the safety, security, manpower, personnel staffing, and Lean programs.

3. Provides management oversight for the Industrial Prime Vendor (IPV) Program, manages the security and safety program, develops organizational charts, and manages the Lean programs for the division.
